There are two sections of broken sidewalk right at the entrance. I'm not sure what street that is. While the crew is at it, they should probably remove the tree well covers that are installed. As I understand from Greg Monfette the covers are not good for the trees and these are pushed up so as to be tripping hazards in and of themselves.

Hi Don,

That is great question. Earlier in the year we made recommendations around city facilities for which we were aware. Let me see where that list is and what the status is. The sidewalk directly in front of the entrance?

Also, I will be in all day. Please give me a ring so I can chat briefly about this water issue on the west side of Sepulveda.

Kind regards,

We were attended a Pacific Division Crime Control meeting this morning. What a wonderful opportunity to meet those protecting our community. Also an opportunity for us to decide how we can help harden the target presented

by our BID area for the holidays. In leaving we noticed that the sidewalks in front of Pacific Division were broken in several places. We were wondering if Councilman Bonin has allocated a portion of the monies that CD11 will be receiving to repair "public service adjacent" sidewalks to fix those particular sidewalks. Can you let us know Fred? There's not a lot of work to be done if it's dealt with now. Thanks.
